

CSCI 461  
Senior Project  
Deliverables 12/09/09

Final Project Demonstration

Power Point Presentation (Electronic)

Project Abstract (Both Electronic and Paper)  
Specification Document (Both Electronic and Paper)  
Design Document (Both Electronic and Paper)  
Installation Instruction (Both Electronic and Paper)  
User Manual (Both Electronic and Paper)

Completed Project (Electronic executable version)  
Completed Project (Electronic all source code)

During class each group will recap their project using a power point presentation and give a demo of their semester project.

The paper documents must be bound in a three ring binder and separated into sections, with title page, paper numbers, table of contents, index, and a bibliography. Make sure this material is well organized. The electronic version (on CD) must be placed in a plastic sleeve (with holes) and placed in the front of the binder.

The electronic versions must be turned in on CDs ( R ).  
The CD must be organized into sections and/or folders.  
There must be a "ReadMe" file in the top directory explaining the CD contents and organization.

No documents or electronic media will be returned.
