

CSCI 461
Senior Project
Deliverables 10/7/09

Copy of Presentation III (Electronic)
Copy of revised Specification Document (Paper and Electronic)

What is a Technical Update?

This presentation will be a summary of the Technical Challenges, resolution and proposed changes in your project.

You may want to think about the following question when creating your presentation.

1. Have these issues been resolved? How were they resolved?
2. If they have not been resolved, what is your schedule for resolution? What is your plan for resolution.
3. What are the changes in your specifications as a result of the Technical issues?
